

Electrovision

T143FH

DAB Radio Aerial

Can be exterior or loft-mounted

Simple, fast assembly

Suitable for DAB Radio

IMPORTANT

Installer and Users please note:

These instructions should be read carefully and left with the user of the product for future reference.

BEFORE USE

Inspect the product for any signs of damage. If the product is damaged, DO NOT use it, and contact your supplier immediately.

Check that all the items shown below are included:

Mast clamp

INSTALLATION

Attach the parts together with the wingnuts provided, as shown above.

Clamp the aerial to the mast between second and third directors.

Connect the coaxial cable to the F-connector on the dipole unit. Connect the other end of the coaxial cable to the aerial input of the DAB radio. This is usually also an F-connector socket, but could be a TV-coax socket. Connect the appropriate plug to the cable, or, if using a ready-made cable, adaptors are available, part number F399A (F-socket to TV-coax plug) from your local Electrovision dealer (see www.electrovision.co.uk and click the "dealers" link)

Orientate the aerial so that it points to the nearest transmitter.

You can find the location of your nearest transmitter at <http://www.ukfree.tv/transmitter.php>

If there is an obstruction in the direction of the transmitter, then pointing the aerial slightly to one side of the obstruction may result in improved reception.

If in doubt, observe other aerials installed in the neighbourhood, and point the aerial in the same direction.

NOTE: These aerials are intended for use only with DAB radio receivers (Band III, 174 - 230 MHz)

TECHNICAL SPECIFICATION

Dimensions:	920×915×330 mm
Weight:	0.6 kg
Material:	aluminium alloy
Connection:	F-connector
Band:	III
Operating frequency:	174 – 230 MHz

These aerials are not suitable for use with FM radio (Band II, 87.5MHz to 108MHz) nor digital or analogue television (Band IV/V, 470 – 860 MHz)

DISPOSAL AND RECYCLING

You must not dispose of this appliance with domestic household waste.

Most local authorities have specific collection system for appliances and disposal is free of charge to the end-user.

When replacing an existing appliance with a similar new appliance your retailer may take the old appliance for disposal.

SERVICE WARRANTY

Electrovision guarantees the product free from defects in materials and workmanship for a period of twelve months.

Should this unit be operated under conditions other than those recommended, or any attempts made to service or modify the unit, then the warranty will be rendered void.

The product you buy may sometimes differ slightly from illustrations. This warranty is in addition to, and does not affect, your statutory rights.

If you have any problems with this product, please call our Help Desk on (0845) 459 4816.
